

# We need your help!

## Get involved in our citizen science project

## Do goldfinches visit your garden?

You could help us to understand where they go and how long they live.

## Submit your sightings

If you see a colour-ringed goldfinch, please send us the two-letter code and the date & location of your sighting to: [goldfinchresighting@gmail.com](mailto:goldfinchresighting@gmail.com)

We will send you the history of that bird - where and when it was ringed, and where else it's been seen.
